

1815 Limited On-line Archive

The archive provides members with instant access to fully transcribed and typeset copies of letters and reports, most of which have been translated into English. The various items are presented in a simple format like a book, using special software from Secure-eBook. The following list has two different types of entries. Those listed in black italics are currently being prepared for inclusion within the archive, while those in red already form part of the collection:

British

Please note that the above list does not represent the entire planned contents of the 1815 Limited on-line archive, as hundreds of letters and reports from the various contingents, especially the French and Prussian, are set to be added along with material on the uniforms, weapons and equipment of the various armies at Waterloo. It is estimated that the on-line archive will contain in excess of 1,000 separate items by June 2015.
